Portfolio: [rashmika-thehan](#)

PROFILE

Full-Stack Software Developer Proficient in JavaScript ecosystem including React.js, Node.js, and Express.js with experience building scalable web applications and RESTful APIs. Skilled in MongoDB, SQL databases, and cloud-integrated deployments. Hands-on experience with authentication, MVC architecture, and version control using Git. Familiar with Python, machine learning workflows, and data analysis libraries. Strong foundation in problem solving, debugging, and Agile development practices. Passionate about backend scalability, AI/ML systems, and modern web technologies.

EDUCATION

Bachelor of Information and Communication Technology (Hons) Degree (2022 - present)

Faculty of Technology | University of Sri Jayewardenepura

GCE Advanced Level (2021)

Nugawela Central College | Engineering Technology - 2A's, 1B | Z-Score - 2.0986 | District Rank - 11

PROJECTS

greenAid – MERN Agriculture Community Platform

- Built a community platform for farmers and Consultants for plant disease discussions using the MERN stack.
 - Role-based authentication (Farmer / Consultant / Admin)
 - Create, comment, and categorize plant disease posts
 - Admin dashboard with user and post analytics
 - Image uploads and cloud storage support

IoT-Based Bus Tracking System – Real-Time Public Transport Monitoring

- Contributed to developing the front-end for a real-time bus tracking system powered by ESP32/ESP8266 microcontrollers and RFID readers. Designed and built the frontend interface for displaying live bus locations, route information, and stop updates.
 - Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB Atlas, ESP32/ESP8266

SmartCart - Chrome extension

- Developed a Chrome Extension called Smart Cart that performs real-time sentiment and trust analysis on Daraz product reviews. The tool leverages the Mistral AI API to process multilingual feedback, providing users with concise AI-generated summaries and pros/cons lists to aid purchasing decisions.
 - Tech Stack: REACT.js, TailwindCSS

EXPERTISE

- **Programming:** JavaScript, HTML, CSS, Python
- **Frameworks:** Node.js, Express.js, TailwindCSS
- **Libraries:** React.js, Pandas, Numpy, Scikit-Learn
- **Databases:** MongoDB, SQLite, SQL
- **Tools & OS:** Linux, Git/GitHub
- **Concepts:** REST APIs, Authentication (JWT), MVC, Machine Learning, CI/CD Fundamentals

SOFT SKILLS

- Strong problem-solving.
- Collaborative development
- Technical communication
- fast-learning ability.
- time-management skills.

CERTIFICATION

- Multicloud Network Associate | Aviatrix | Oct 2025
- Certified AI Data Security Specialist | Proofpoint | 2025
- Fortinet Certified Fundamentals Cybersecurity | Fortinet | Oct 2025 (Exp 2027)
- Data Analysis with Python | freeCodeCamp | Sep 2025
- Intermediate Machine Learning | Kaggle | May 2025
- Fortinet Coursework (Getting Started in Cybersecurity 3.0, Introduction To Threat Landscape 3.0) | Fortinet | Oct 2025
